Every child deserves
a good start!

Do you know a child
who is not moving,
hearing, seeing,
learning or talking
like others their
age?

GROWING TOGETHER!

LEARNING BEGINS FROM THE DAY OF BIRTH!

All children grow and learn at their own pace.

Some children have delays in their development or trouble learning certain skills.

Parents are often the first to notice when their child is not learning or growing like other infants and toddlers.

WV Birth to Three can help when there are concerns about how a child is growing or learning.

WV BIRTH TO THREE CAN HELP!

If there are concerns about a child's development WVBTT can:

Answer questions about a child's development to decide if he or she is growing and learning on schedule.

Offer ideas and assistance to families as they look for ways to understand and help their child's development.

Link families to financial or other supports they might need.

Arrange services to be provided in a family's home, a baby-sitter's house, childcare center, grandparents' house or other place in the community where the child plays, learns, and grows.

WHO IS ELIGIBLE FOR WVBTT?

Children under age three who have significant delays in their development, or who may have medical conditions or other risk factors that can cause delays in their development can be eligible for WV Birth to Three.

Developmental areas where children might need help:

Cognitive:
Thinking and learning

Physical:
Moving, seeing, hearing, health

Social/Emotional:
Feelings, coping, getting along with others

Adaptive:
Doing things for him/herself

Communication:
Understanding and communicating with others
